

VOL. 6, NO. 282.

CONNELLSVILLE, PA., TUESDAY EVENING, OCTOBER 6, 1908

EIGHT PAGES

NEW HAVEN COUNCIL TALKS ON ANNEXATION QUESTION.

Caustic Remarks Made Regarding Lack of Interest in Connellsville Body.

REVISION OF BOROUGH ORDINANCE BROUGHT UP.

Whether New Haven should give away 30 feet of space along Tarenton avenue between Sixth and Third streets; caustic remarks and scathing criticism of the Connellsville Council over the annexation problem and the revision of the borough ordinances of the town were important matters that came before the New Haven Town Council last night when it assembled in monthly meeting.

All the members except Cooper, Patterson and Solomon Lapley were present, and the discussions were open and pointed. The unique proposition of W. F. Soisson to have Tarenton avenue narrowed from 40 to 30 feet occupied most of the attention of the Council, and it was finally decided that Council should meet in a body and view the premises before taking up the proposition. Mr. Soisson owns eight lots which abut on the Young river and face on the avenue. Thirty feet additional in their depth would make a material difference in them, although it was stated that he does not desire them for home-building purposes. However, President W. H. Thomas stated he could not see why any one wanted a street narrowed and wanted to be shown the reasons and the value of so doing. Tarenton avenue runs almost the entire stretch throughout the borough, but a former Council granted privilege to a property owner along the avenue to narrow it 20 feet in order to allow him a lawn. The matter of narrowing the thoroughfare will come up before the entire assembled body and they will investigate the matter.

Councilman John Duggan reported that the annexation problem had not progressed very far in the Connellsville Council. It is not in shape yet but he expected that at tonight's

meeting something would be done. Duggan charged that some of the Connellsville Councilmen were against the measure, and his remarks brought forth some indignant comments from other members the tenor of which was that New Haven wasn't wildly anxious for annexation and if the matter is not acted on now it might be a long time before that side of the river made any further propositions.

It developed that a large number of ordinances of former Councils had not been carried upon the books and this brought up a discussion of the revision of the borough ordinances. Burgess George A. Maricle stated that it was a waste of time to endeavor to compile an ordinance book at this date and asked that a total revision of the ordinances take place. He said that since 1871 the ordinances had not been revised, and that they were scattered and jumbled; some of them being copied on the backs of envelopes without record and without means of knowing what they were.

The fee for the of the ordinances of the borough of New Haven are worthless," said Burgess Maricle. And to prove it he went to his office and fished out old worn torn books and showed Council. For several years past no ordinances have been copied into the books and the clerk was instructed with the aid of Burgess Maricle to obtain copies of these ordinances and copy them. The general opinion was that the ordinances should all be revised and those that were not effective be discarded and destroyed.

P. S. Briggs & Company of Philadelphia stated that they had taken up the bond issue of Connellsville but (Continued on Page 2)

TERMS ARE ASSIGNED PRISONERS FOR VARIOUS OFFENCES AT SENTENCE COURT THIS MORNING.

UNIONTOWN, Oct. 6.—A prison court held this morning but only minor offenders were disposed of. The longest sentence of the morning was meted out to Thomas Hunter and Dan Putner, two young men charged with robbing cars at Newell. They drew two years each in the penitentiary.

Charles Horner, convicted of second degree murder in the killing of Arthur Roucette, was sent to the Huntingdon reformatory in spite of the eloquent plea in his behalf on the part of Attorney D. W. McDonald.

Huttle L. Ballou, who pleaded guilty to assault and battery upon Mary Bush, was let off on paying the costs. The girl in the case refused to push the case against him.

Pete Zogari was let off on paying the costs for slapping his boarding mistress. Pete has been a resident in the county jail since last June which accounts for the light sentence.

Harry Shultz of Columbus, Ohio, took a plea of guilty to the charge of assaulting Mrs. Samay at Shady Grove and was given 60 days in the workhouse. He was sentenced to leave Jefferson county at this time to a Charles Snoddy who ran off with the wife and family of a lodger a hundred some time ago and was apprehended at Laurel, where he was paying the costs. Snoddy admitted his guilt but said the woman took \$60 belonging to him and then went back to her husband.

Charles Strickland and Curtis Wilcox, two boys who pleaded guilty to assault and battery upon Mary Bush, were let off on paying the costs of the case. The father of Wilcox said he had raised a family of 11 children and this was the first one to ever get into trouble.

Mike Daniels, a Lyons foreigner, paid the cost of assaulting another for going in a fight.

Frank Gandy and Leo George Carr

who stole a horse in Fairchance and tried to sell it in Connellsville entered pleas of guilty and were given three days in Huntingdon reform school.

William Martin of Connellsville and James McDonald of Brownsville were each fined \$7 and given six months in jail for carrying concealed weapons.

George Wilson of Uniontown admitted stealing a \$6 coat and will spend 90 days in jail.

Lid Henning of Stewart township was supposed to have taken all the money out of a safe except 17 cents. The prosecutor said there was \$19 in the strong box but Henning admitted taking but 1 cent of the \$18.75 he found saying he wanted the money to go to Confluence on the 9th day.

William Oliver of Oliver deserted his wife and five children. He told the court he is looking for a job and was told to get one and keep it.

SHIFTS NUMEROUS IN ASSIGNMENTS OF MINISTERS.

Rev. Ashe Returns Here But New Men Go to Scottsdale and Dawson.

REV. RISK IS CRITICISED.

His Plan for New Methodist Temperance Society With Himself as President Was Not Popular—Rev. Cartwright Goes Up—Conference Ends.

—

VANDERBILT Oct. 6.—After making its annual meeting yesterday the Pittsburgh district conference of the Methodist Episcopal church adjourned. It will convene next year at Bellevue.

The assignments for the McKeesport district in which Connellsville and neighboring towns are located caused some unexpected shifts in several new facets will be seen in the pulpits. Rev. J. A. Ashe was returned to the Connellsville church while Rev. F. K. Howe will serve as honor pastor.

Connellsville, which has been experiencing a shift since Rev. C. E. Cartwright left there a few years ago will have a new minister in Rev. B. M. Mantell, at one time pastor of the Connellsville church. Surprise in this section was created when it was announced that Rev. C. E. Cartwright formerly of Scottsdale and one of the most popular ministers in that section has been returned to the pulpit of the First church at Brookville but will be connected with the North Avenue church of Pittsburgh serving his connection with the McKeesport district under Burgess.

Dawson Jones, Rev. J. D. Wilson, who has been a prominent figure in this region during his pastorate at the Philip G. Cochran Memorial church of that place, Rev. B. M. Jones to Aspinwall and succeeded by Rev. H. N. Chardan.

The committee on arrangements is T. B. Henderson S. R. Means William P. K. Kooser and Joseph Means they have sent out a cordial invitation for all to be present at the meeting.

The speakers for the evening will be Congressman Allen J. Cooper, District Attorney Davis W. Henderson Richard Davis former member of the legislature and Attorney L. B. Brownfield.

Vanderbilt Prepares for Rousing Republican Meeting Thursday Night.

Vanderbilt Republicans have completed all arrangements for the political gathering there Thursday evening and the event is expected to be one of the most interesting of the campaign. Dr. H. H. Hazlett and Joseph Means compose the committee in charge of the arrangements.

At a meeting of the Republicans an organization was effected as follows: President Dr. J. H. Hazlett, Vice Presidents, M. D. Townsend T. L. Townsend, James Barnhart, John Rittenhouse E. Miller, John Black Ellsworth Conn. C. O. Schreyer, Wm. McManamy W. R. Parikhill, Dr. J. F. Cogan, John Short, William Knight, William Cole, U. S. G. Leighty Z. T.

MARRIED AND SINGLE MEN TO PLAY BALL.

Warm Contest Will Be Pulled Off To-morrow In New Haven on Carnival Grounds.

Back of the Columbia Hotel on the grassy plot used by carnival tomorrow afternoon will be pulled off one of the greatest games of ball of the season. The distinct features of the game are that there will be no admittance and the settlement of a long standing and ever increasing difference between the married and single men in the community.

Several weeks ago County Detective McLaughlin entertained a large number of his friends at his farm in Darke bar township. A ball game was started and the sides were made up of married and single men. The married men walked all over the single men out there and it engendered high feeling. The result was that a few days later Antonio Bufano and S. P. Gleniken signed articles of agreement that the teams should meet again and the losers were to furnish a spaghetti supper of large proportions.

After that time the matter drifted along each day the game being a matter of discussion until about half of the two towns are now interested in it. Yesterday it was arranged that the game should be played off tomorrow afternoon.

The umpires of the game have not been announced and it is rumored that several have turned down hand some offers to umpire the game. The batters announced are Staub and Bufano for the married men and Gleniken and Squire Smart for the single men.

UNDERWRITERS TO SUBMIT NEW RATES.

Entire County Insurance Has Been Revised and Board Will Confer With Agents Here.

The insurance underwriters of the Allegheny district of Pennsylvania who have conducted their re-rating of Jefferson county will meet at the Astor Hotel here Thursday morning and submit their new rates to the insurance commissioners. The Board of Underwriters took up the matter of adjusting the rates in this county and their work has just been completed.

Sessions were held yesterday and today with the Uniontown insurance agents and according to reports the new rates were entirely satisfactory. What the Connellsville agents will have to say about it remains to be seen.

It is said that there has been an increase in the ratings on business houses and residences there to indicate dwellings removed from places of business will be issued for a low rate. It is said these changes are mere conjectures and lack confirmation. In the readjustment of rates it is likely that there has been both an increase and a decrease.

CHRISTMAS INSTITUTE

Westmoreland Teachers Will Convene During Holidays.

FREDERICKSBURG, Oct. 6.—According to the present plans of County Superintendent Rosella L. Shaw the school teachers of Westmoreland county will be convened to the towns from their homes on Christmas day—January 1st. The school term will be suspended January 1st and resume January 2nd. The institute will be opened on Monday, December 21st.

POWERS STEP IN TO STOP HOSTILITIES.

Sultan Will Postpone Declaration of War Until Conference.

MAY MEAN TURN FOR BETTER.

Servia Is Mobilizing Troops and Feeling Is High—Demand for War with Austria Is Heard on All Sides in Street Demonstrations.

—

UNITED FRICS, Oct. 6.—Following the advice of France and England Sultan Abdul Hamid is expected to postpone the declaration of war against Bulgaria.

This action is believed to mark a sudden turn for the better in the Balkan situation and may be a means of preventing war. All the Balkan states are now at war with each other.

The Sultan is expected to do this because the military forces have been disbanded and the public is told to hold the war until a decision is made to take no chances.

With Return of Cool Weather Came Men Who Have Become Well Known Through Their Activity in Police Circles.

—

It is felt the time and the situation with regard to other more difficult problems in foreign countries has made the Balkan situation just beyond the confines of the Third world have become an ordinary business.

The matter is without the jurisdiction of the local Board of Education but is settled between the parents of the children and the township school in

SCHOOL BOARD SHUTS DOWN ON PUPILS BEYOND LIMIT.

Investigating Attendance of Children Living Out of Town in Public Schools.

REFUSE SCHOOL BUILDING FOR HOLDING ELECTION

That between 30 and 40 children living out lie the borough live on

Joining the facilities attended by the Connellsville schools without paying for their tuition developed at last night's meeting of the School Board.

A committee was appointed to investigate this matter at the first meeting and its report contained the suspicion that were held along this line.

Specific action will be taken by Board

including Principals, Deaf, though with the consequence that several of the pupils are now pursuing their education through the medium of the township schools others have paid up with a few paid under protest. The Connellsville town board agreed to pay the tuition of number of children living just out side of the borough limits in the Hong addition but said this decision had been made in holding the election.

Secretary Thomas in an aside con-

fided that the present quirk in Whaley's state are ample large enough

to vote but there is no room for loading.

The previous Board failed for more than a year to get the election board out of the school building and the present set of Directors refused to let them in again after once getting them out.

Principals Deffenbaugh presented his report for the month and started out with reading a number of questions he has directed to each of the ward principals relative to work in the schools. Mr. Deffenbaugh also reported that Room No. 1 in the Second ward building is badly overcrowded, Miss Carrie Kenyon, his teacher, having 30 children in her custody. The Board decided that some of these children must be transferred to the Fourth ward school.

The matter is without the jurisdiction of the local Board of Education but

is also brought to light that several children in the No. 2 room of the Second ward have been in that

TRAINS ROBBED BETWEEN TOWNS.

Railroad Sleuths Discover
Daring Method of Loot-
ing Cars.

WAS MYSTERY FOR LONG TIME.

While Train Is Running Men Swing
Down Side by Use of Ladders and
Hurl Plunder Along Track, Getting
It Later.

CUMBERLAND, Md., Oct. 6.—A new and dangerous method of stealing merchandise from the Baltimore & Ohio railroad freight trains has just been discovered by railroad police.

Investigations proved that the cars were not being opened at any of the freight stations on the yards and that frequently cars would leave the stations sealed and be found open at the next freight station. This work baffled the police and Baltimore & Ohio Officer Kile was put on the case. He followed the trains for some time and several days ago was rewarded for his efforts by not only ascertaining the method of robbing cars but also by securing one of the ladders with which the thieves worked.

He found that the cars were entered and robbed while en route between stations. The thieves used small ladders, some of rope and some of wood, lightly but strongly constructed. They carried these on a train and hid them, supposedly among lumber and other material shipped on flat cars or on gondolas. When out on the road and the trainmen had gone into the car house or the engine the ladder was taken from its hiding place, lowered over the freight car door with a rope which was secured to the running board on top of the car.

One or more of the thieves could go down the ladder, snap off the seal, push open the door and throw out such merchandise as they desired at points where it would be easily hidden, yet easy to locate.

AT THE THEATRE.

Panhandle Pete. The story of "Panhandle Pete" the latest musical cartoon play, which is founded on George McManus' New York World cartoon, is outline in Panhandle Pete is met by a moving picture film maker, Bijou Gram, who is in search of subjects for moving picture films, and who tries to induce Pete to pose for him. Of course he meets with a rebuff, whereupon he makes Pete a proposition thereby appealing to his professional vanity.

as a tramp by offering him a sum of one hundred dollars, if he, Pete, can successfully panhandle his way about for 24 hours without appealing to a friend for aid or being arrested. If Pete succeeds in bumping three square meals and a place to sleep he is to receive the hundred dollars. The complications arising are varied and many and furnish the theme for the latest and by far the best newspaper cartoon play ever seen at the Sodson theatre. Will be here Thursday, October 8.

PREACHERS ASSIGNED.

A. M. E. Conference Closes—Connellsville to Be Supplied.

The annual convention of the A. M. E. Conference of the African Methodist Episcopal church closed last evening in Johnstown, when Bishop J. S. Caldwell of Philadelphia assigned preachers to various charges.

Among the appointments are: Allegheny conference, Presiding Elder, F. T. Johnson, Uniontown; J. W. Volk, Connellsville, to be supplied, Scottsdale, Rev. W. D. Clinton, Irwin, Rev. E. C. West, Homewood, Rev. B. F. Combs, President of Women's College, and Home Missionary Society; Mrs. A. L. Anderson, President of Buds of Promise, Mrs. Leon Hurst, and President of the Christian Endeavor Society, Mrs. Julia Scott.

Find Man's Arm on Engine Pilot. MONONGAHELA, Pa., Oct. 5.—A southbound freight train on the Pittsburgh, Virginia & Charleston railroad pulled into the Brownsville yards early yesterday morning the arm of a man was found on the pilot. A search was begun along the tracks and the body of an unknown man about 35 years old was found in front of the Lucyville station. The body was taken to Brownsville.

**Noted Athlete
Who Made New
Discus Record.**

Martin J. Sheridan of the Irish-American Athletic Club has established a new world's record by hurling the discus, Olympic style, a distance of 140 feet 5½ inches. The record was made at the Pastime Athletic Club's meet in New York on October 4. The best previous record was 139 feet 11 inches, made by A. K. Dean last June.

SOUTH SIDE BOWLERS

Good Scores Made at Temple Alleys Last Evening.

The South Side bowlers met last night on the Temple alleys and rolled a number of close games. The scores and individual standing of the players follow:

NEWS OF A DAY IN SCOTTDALE.

The Uniontown Construction Company Given Contract for Spring Street.

AWED ON TESTING THE BRICK.

Ordinances Started for Market Street and Arthur Avenue—This is the Night to Consider Hallowe'en Celebration.

SCOTTDALE, Oct. 6.—Town Council met in regular session last evening with all members present but Mr. Horne, and took another hitch at street paving, the Spring street matter being adjusted. When the Thomas Sweeney Company of Pittsburg bid on improving the street they bid on a sixteen roller, but Council was not satisfied with that, but having awarded the contract to the lowest bidder, the Sweeney Company, gave Mr. Sweeney a few days to ascertain if he could not secure the roller of the proper weight, ten tons, according to the specifications. At the end of the period he stated that he was unable to secure such roller, and therefore the contract was called off. Last night the Uniontown Construction Company, C. J. Coates, President, the next lowest bidder, was given the contract. When this was done the question of testing the brick to be used was brought up, and there was a good deal of discussion pro and con on the matter, the Layton brick having been selected, and some of the members being of the opinion that Layton brick put in years ago had proved satisfactory, and they thought that it would simply be no use to put the brick to test. Others argued that brick change in manufacture or source of clay, and they should be subjected to testing. Finally a motion was made that the Borough Engineers and Street Committee be instructed to secure samples from all the brick companies whose brick had been laid up by the contractors and give them all a complete test, and if the Layton brick stood the test properly to accept them, but if they did not, then consider some of the other brick. The contractor was to be warned not to purchase any brick until the tests were made. This brought more discussion and the roll was called. Those voting for having the brick tested by samples were A. B. Colles, L. R. Ridder, T. W. Porter, W. H. Sledgater, O. S. Weaver, P. J. O'Connor and President A. P. Byrne, seven, and those voting against the test J. F. Berry, W. H. Brown, J. W. Pfaffenroth, and H. G. Martz, four. The test will be made as soon as possible.

The ordinances for paving Market street from Broadway to the west side of Grove street and Arthur avenue from Everson avenue to Grove street were taken up and passed two readings. These streets the people wish to have paved at a width of 26 feet, which was provided for. An ordinance to have all persons who are on the streets about to be improved to put in sewers and the gas and water companies to also lay branches before the street is improved was passed on third reading and is under consideration by Burgess William Ferguson. The ordinance is designed to prevent the usual tearing up of the newly paved streets that often occurs and which could be prevented if the people would have their piping laid before the paving is done.

From the Fourth ward came the petition against the location of the carriage furnace particularly in that part of town or in any other part of town. It was ordered to be filed. The petition of the Baptist congregation for an acre of land at Chestnut street and Locust avenue was reported on favorably and was ordered installed. A report of complaint against the sewer outlet in Brownstown was received from the Board of Health. This sewer outlet trouble is due to extending the sewer, years ago, into Jacobs Creek and pointing the mouth at right angles or if anything upstream so that it closes up instead of emptying into the creek. It has been cleaned out a couple of times in the past year, and there is a proposition to turn the sewer mouth downstream. The problem of having the trouble adjusted was referred to the Sewer Committee with power to act. The Citizens' Water Company was notified to remove debris from along Everson avenue just after laying a water line there. The matter of placing a crossing at Oldwin avenue and doing away with the dangerous one at Ruth's planing mill was discussed. A good, safe crossing can be made, probably with the consent of the Pennsylvania Railroad Company, at the upper end of J. W. Ruth's property, and the Business and Street Committee will continue on the work of promoting such a crossing. The regular monthly bills were ordered paid and some other routine business attended to and the Council adjourned to meet at the cap of the President.

Y. M. C. A. Reception.
The reception at the Y. M. C. A. was held in honor of Mr. Carson, the new physical director, was quite a pleasant event and well attended by the people of town. There were solos by Miss Emily Marsh of Mt. Pleasant and there were numbers of regret that the subject had been opened at all.

hopes and J. M. Zimmers handled the subject of finances. The new director is from Ohio and begins work today.

A Store Cat Is Gone.

A tragedy occurred on Pittsburg street when DeKeed Stauffer in his automobile came along Sunday and ran over the big matress cat that lived alternately at Porter & Stover's and C. M. Jarrett's stores at the latter of which she left three orphan kittens. Let it be known that Mr. Stauffer did not designly run down the poor creature, which was hurrying across the street, and was not soon by the animal, no Scottdale automobile being blamed with wantonly running over animals. The cat was a very fine specimen of the feline tribe and known to all the customers who buy at the stores named. She was of extraordinarily cleanliness and never stole meat or anything of that sort so many cats would gorge themselves upon at the slightest opportunity. As she was an unmitting rat and mouse hunter her loss will be quiet one to be felt in the stores until a successor is found, unless the three orphan kittens grow up to be good ratters.

Hallowe'en Meeting Tonight.

Let everyone remember that this, the evening of the meeting called by Burgess William Ferguson at the borough building, at which to consider plans for the fantastic observance of Hallowe'en. The plan is to have an extensive celebration on the streets, with mask and music. The one last year was so successful that it will be repeated this year on a more extensive and better organized scale. Burgess Ferguson at that time put the boys of town on their honor to forge those distortions of stonking gates, tearing down fences and overturning outbuildings in consideration of having a celebration on the streets. They took to the plan with hearty accord and there was a lot of fun, while property was safe and everyone, old and young, enjoyed the fun. The Burgess feels this year that the celebration of such might be cut out, the marking up of the streets, houses and fences, not to say the clothing of people who are out on the streets at that time. He believes, too, that the boys will rest from his doubtful pleasure. He is a believer in boys and has found his experience to be that boys who have been put on their honor in that way will not throw him down, and those that he has dealt with have proved that he is right and that people who believe boys will simply throw down anyone that trusts them fair and square are mistaken.

His Leg Amputated.

Daniel S. Pretts, who was taken to the Mt. Pleasant Hospital on Sunday, suffering from blood poisoning resulting from a small wound on his foot underwent an operation on Monday his leg being removed above the knee. Mr. Pretts is 78 years of age and widely known as a progressive farmer through this section. He stood the ordeal quite well and last evening seemed to be coming from under the influence of the anesthetics and the shock in pronouncing shape. His many friends hope sincerely for the best.

Result of Sunday Evening Battle.

As the result of a Sunday evening battle on the way home from church several members of colored society and church work were given a hearing before Burgess William Ferguson at 7 o'clock last evening, the borough office being crowded. The affair was mixed up, jealousy coming out as the prominent factor in the trouble. The fines that were levied amounted to \$29.

SCHOOL BOARD SHUTS DOWN.

(Continued from First Page)
room for three and four years and seem incapable of assimilating sufficient knowledge to warrant their promotion. Because of the congested condition of this particular room it was decided to send some of these apparently hopeless ones to No. 2 room because they cannot cause the teacher or the higher grade more trouble than they do. Miss Kenyon and the change might do them good.

In the matter of excuses for children to miss an afternoon for the matinee, years ago, into Jacobs Creek and pointing the mouth at right angles or if anything upstream so that it closes up instead of emptying into the creek. It has been cleaned out a couple of times in the past year, and there is a proposition to turn the sewer mouth downstream. The problem of having the trouble adjusted was referred to the Sewer Committee with power to act. The Citizens' Water Company was notified to remove debris from along Everson avenue just after laying a water line there.

The matter of placing a crossing at Oldwin avenue and doing away with the dangerous one at Ruth's planing mill was discussed. A good, safe crossing can be made, probably with the consent of the Pennsylvania Railroad Company, at the upper end of J. W. Ruth's property, and the Business and Street Committee will continue on the work of promoting such a crossing. The regular monthly bills were ordered paid and some other routine business attended to and the Council adjourned to meet at the cap of the President.

Although this case has never been decided by the Supreme Court, as no test case has been carried that far, it was Mr. Carson's opinion that where a child was excluded from the schools because of not having been vaccinated, the parent could not be prosecuted under the compulsory school law.

This ruling was not received by the Board with any degree of enthusiasm and there were numbers of regret that the subject had been opened at all.

In the matter of bills for tuition against John Enos and J. J. McFarland

of Vanderhill, the time for payment was extended in Enos' case while it was directed that steps be taken for collection against McFarland, who, it was alleged by Secretary Thomas, had ignored all communication from the subject.

At the suggestion of Principal Dunham the Board authorized the rental of the Carnegie Free Library lecture hall for the use of the literary societies of the High School, their present facilities in the school building being inadequate for the demands of the occasion. The rental is not to exceed \$5 monthly this to go towards paying the janitor's services in keeping the hall in shape.

After pending for several months

the bill of J. C. Fulton, amounting to \$25, was paid. Mr. Fulton agreed to accept this sum in payment for all work to date.

It was agreed to transfer all responsibility for the operation of the heating apparatus in the Second Ward building from the Favorite Plumbing Mill Company to the American Warming & Ventilating Company, as suggested by the latter concern. The visiting committee, through Chairman James S. Darr, reported on the work being done about the various schools. Mr. Darr suggested that the old boiler be removed from the Fourth Ward school into the High School building but the Board was of the opinion that would double the task of the latter structure. It was thought best to erect a separate boiler house but no action was taken. The coal bill of A. R. Stillwagon was held over because the weight silks he got accompany the account.

The Board, at the suggestion of Secretary Thomas, volunteered the sum of \$5 to A. B. Morton, who painted inside staves on the black boards when no painters could be secured. The bill was approved.

The following bills were ordered paid, after which the Board adjourned:

Councilville Machine & Car Supply Co., hose supplies	\$ 17.20
C. E. Merrill, gas burner and heating apparatus	1.75
James Dowds, lumber	150.00
Lawrence Whitton, labor	23.45

WEAR HORNER'S CLOTHING

The first month of school at the Gibson schools closed on Friday, October 2. During the month there were enrolled 421 pupils, most of whom were in regular attendance during the month. Although the work in several grades was somewhat hampered on account of a lack of text books, yet the work done by both teachers and pupils has been most satisfactory. The three year High School course adopted by the Board last spring and now in use in the High School has been fully recognized and approved by the State Department of Education. Directors visiting the schools during the month were Messrs. Blackstone, Boyd, Steacy and Brown. The following is a correct report of each grade. The first column denotes grade, second name of teacher, third enrollment, fourth average attendance and fifth percentage of attendance.

Total 81228

Burgess George A. Minde presented the following report, which was adopted as read:

Total number of arrests ... 39

Police in absentia 7

Convicted 14

Committed to county jail 1

Paid after commitment 1

Left juvenile 6

Discharged 3

Released 10

Total sum of fines collected \$31.50

Rec'd for 5 permits \$0.00

Inclusive 1.25

Received well sent from 2.50

Amount Due on cost of \$22.75

Paid sundry accounts05

Paid for food for prisoners 2.00

Paid committee to 1.00

Paid for five cases 2.50

Paid for attorney 1.00

Paid New Haven National Bank 6.00

Treasurer 20.00

Amount Due on cost of \$55.25

Amount Due on cost of \$55.2

SKEPTIC'S STATE INVADED BY TAFT.

Endeavors to Show Them Why They Should Defeat Bryan.

KISSES BABY ON THE FOREHEAD

Statement That Roosevelt Still Contemplates Stumping Tour Denied at White House—Secretary Lobs Not So Emphatic as Formerly.

Macon, Mo., Oct. 6.—Judge William H. Taft made three speeches in Kansas and thirteen in Missouri. Eight of the stops in the "show me state" were arranged upon urgent demands from towns through which the special was to have passed without stopping. This resulted in delaying the Taft special more than an hour and the big audience at this place had to wait until nearly 10 o'clock for the appearance of the candidate.

While the name Bryan was heard more than during any previous day of the trip Mr. Taft's reception has been such as to cause him to express surprise and gratification not only as to the number of people he has been able to address, but as to their cordial indication of friendliness. Speaking of his reception at several of the stops, Mr. Taft said,

"It is an augury that Missouri is going to show somebody at the next election that she does not intend to remain a mysterious stranger, but will become a regular resident among Republicans."

A young mother presented her baby to the judge, who took the infant in his arms and kissed it on the forehead while the crowd went wild over the demonstration.

Lincoln, Neb., Oct. 6.—In an interview given out by W. J. Bryan he denies as has been alleged that he over made a speech or wrote an editorial against the granting of pensions to soldiers. On the contrary he declares that all of his platforms have endorsed pensions and that he favors a liberal pension policy.

Washington, Oct. 6.—"President Roosevelt at present has no intention of taking the stump in behalf of Mr. Taft" is the way in which persistent reports to the effect that he was to make a speaking tour in favor of the candidacy of the Republican nominee are denied at the White House. The latest story on this subject is that received at Lincoln, Neb., by W. J. Bryan that the president intended taking the stump and was planning to make at least six speeches on a tour across the country, terminating at San Francisco. This information was said to have reached Mr. Bryan from persons in the east upon whom reliance could be placed.

Numerous times during the president's summer vacation similar reports were flatly denied by the president's secretary at Oyster Bay. Since the president's return to Washington these reports have become more numerous and each has been denied. When the matter first came up the denials of the president's secretary were unequivocal, but to the latest reports he has given somewhat qualified denials, always saying that it is the president's present intention not to take the stump.

LONGWORTH DENIES IT

Says He Did Not Propose Roosevelt for President in 1916.

Cincinnati, Oct. 6.—Congressman Nicholas Longworth who was in Cincinnati en route east where he will continue his speaking tour denounced as a campaign lie the widely published story that in a speech at Rock Island, Ill., he proposed that after Judge Taft had served two terms as president that President Roosevelt would again be a candidate for the presidency.

Congressman Longworth said,

"I was introduced by the chairman of the meeting as a son of Ohio and since Ohio seemed to be determined to break the record as a mother of presidents he said in a jocular vein that I probably would be a candidate some day myself. Replying in a similar vein, I said that I was not there as a member for any office. I was there to speak of the present and to advocate the election of Judge Taft for president, not in the future but now. I said that I believed confidently that Judge Taft would be elected president and that his administration would be wise and beneficial to the people that they would demand that he would serve them another term. After that I said 'Ohio would not be selfish and would yield to some other state—perhaps New York—to nominate the next president.'

"I had no particular candidate in mind. New York coming first into my mind because of the presence of Mr. Sherman on the platform. At that point many people shouted Roosevelt and the audience cheered his name loudly."

Bridge Project Not Dead Yet. Parkersburg, W. Va., Oct. 6.—The decision of the board of engineers at Cincinnati rejecting the petition to allow a bridge to be constructed across the Ohio river to connect Parkersburg and Belvoir, W. Va., has not discouraged those backing the movement. If Newell of East Liverpool, O., president of the bridge company, is in Washington to enlist the aid of Congressman Burton.

THREE RULERS WHO FIGURE IN THREATENED WAR IN BULGARIA.

The attitude of Prince Ferdinand of Bulgaria in the threatened clash with Turkey startles all Europe. Arms are being rapidly mobilized on the frontier and Emperor Francis Joseph has notified the powers that he may tighten the bonds that unite Bosnia and Herzegovina to Austria. The Bulgarians have faith in their army, which is a compact, high-grade force, although it is perhaps lacking in officer, and the world to which Bulgaria has long been suspected of preparing could be bought with more advantage for her now than when the new Turkish government has time to reorganize its forces which have become a victim of corruption and neglect of the old regime.

ENGLAND GIVES POWERS NOTICE.

Violation of Berlin Treaty Will Not Be Tolerated.

BULGARIA INVITES CONFLICT.

Declares Independence From Suverainty of Turkey and Marches Army Toward the Frontier Ready to Meet Moslem Foe.

Both Bulgaria Oct. 6.—The declaration of Bulgaria as an independent kingdom was formally made at the ancient Bulgarian capital at Tzernovo. Prince Ferdinand and the cabinet are reported to have acted in complete harmony in the declaration of independence. The cabinet pronounced the declaration and Prince Ferdinand immediately signed the document.

The text of the declaration has been reported to all the European chanceries but it is being withheld from the public pending the receipt of a reply from the various governments. The delay is being utilized in rush the completion of Bulgaria's military plans.

Immediately upon Ferdinand's arrival in Rustchuk from Austria he was handed a cipher telegram from Prince Malinoff marked urgent calling him to Tzernovo.

Here he was joined by his ministers and the conference lasted from midnight until morning when the proclamation was issued. It was held up temporarily to enable an official notification to be sent to the powers before giving news to the press.

A conference of war ministers and chiefs of staff followed. Telegrams were sent throughout the whole of Bulgaria ordering the immediate mobilization of all available solders.

Bulgaria Prepares for War.

It is expected to have an army of at least 300,000 ready for the field within three days. The work of fitting out in the present situation having been forecasted for a long time.

Ferdinand is now in conference with representatives of foreign banks relative to financing the war.

Paris, Oct. 6.—France has assumed a role of mediator with the object of preventing war between Turkey and Bulgaria and as a result of Foreign Minister Pichot's series of conferences with the representatives of the powers, including M. Iswolsky, the Russian foreign minister; Naoum Pasha, the Turkish ambassador to France; the Austro-Hungarian, the British, the American and the Italian ambassadors and of active exchanges which have been going on between the various cabinets it was announced that Great Britain, Russia and possibly Italy were prepared to act in unison to prevent peace and to call a conference of the signatures of the Berlin treaty to be made at first at Lake Leman, a farmer while he was walking in a field but he beat the animal off. Then it went to the William Rehly farm where Rehly's dog was also bitten. The dog was killed.

Peace Depends Upon Taft. Already certain tentative propositions as a basis for such conference have been forwarded to Constantino-

METER READING IS NOT DIFFICULT.

Anyone Can Keep Tab on His Electric Light Bills.

THE DIRECTIONS ARE SIMPLE.

While Reading is Mystifying to Many It Can Easily Be Accomplished and Electric Bills Checked Off—Rules for Reading Follow.

Of all the mechanical arrangements ever introduced to the home the recording watermeter is the most mystifying. Although this little device decides on the amount of the monthly electric light bill, its ways are so dark and mysterious that the ordinary layman cannot even read it, let alone tell how it works.

After all, it is a very simple device, consisting essentially of a tiny motor which actuates the dial pointers by means of a train of gears. The motor is in circuit with the lamps and revolves at a speed proportionate with the current being used, if only one lamp is turned on the motor revolves very slowly, increasing in speed with every additional lamp. Or, if a number of lamps are in use and one is turned on the motor diminishes in speed and will continue to do so for every lamp that is extinguished.

The reading of a meter is as simple as its construction and any user of electric current can read his own meter and check his electric light bills by following a few simple directions. Electricity is measured by the kilowatt hour, or by the watt hour, one kilowatt being equivalent to 1,000 watts.

First. Note carefully the unit in which the dial reads. On all meters made by the General Electric Company the figures above or below the dials indicate the value of one complete revolution of the pointer, therefore one division indicates one-tenth of the amount marked above or below.

Second. Note direction of rotation of dial pointers. Counting from the right the pointers of the first, third and fifth dials of the General Electric Company's meter rotate in the direction of the hands of a watch, whereas, the pointers on the second and fourth dials move in the opposite direction.

Third. Read dials from right to left, setting down figures as read.

Fourth. Always read the figure on each dial which has just passed or is just covered by the pointer.

Note carefully. Each dial reading depends on the reading of the one next to it on the right. Unless the one before it has completed a revolution or passed the 0, the pointer which is being read has not completed its travel upon which it may appear to rest, and still indicates the figure last passed over.

Fifth. See if the register is direct reading, i.e., has no multiplying constant.

Some registers are not direct reading, but require that the dial readings be multiplied by a constant in order to obtain the true reading. If the register face bears the words "multiplied by 1/4" multiplied by 2" etc., the actual reading should be multiplied by 2 in the first case and doubled in the second, and similarly for other constants.

Sixth. Subtract from the present reading the reading of last month, multiply the difference in kilowatts hours by the rate per kilowatt hour you are paying and you have the amount of your bill in dollars and cents.

RATIONAL CURE FOR ECZEMA

No More Dosing the Stomach—Cure the Skin Through the Skin.

When you have a scratch on your hand you wash it out and cleanse it and then the skin cures itself. You do not take blood medicine to cure a festored wound.

The best skin specialists today are agreed that the only way to cure the skin is through the skin.

The fact that eczema is a skin disease and not a blood disease is evident from statistics which show that nearly all eczema sufferers are perfectly healthy in all other ways except as to their skin. If the eczema patients were really suffering from an inward malady, the entire body and not only the skin would be diseased.

You can prove immediately the belief of a true skin cure by using oil of wintergreen as compounded in D. D. Prescription.

This liquid attacks the disease corpus, numbing them while healing up the healthy tissue of the skin. We have now handled this meritorious and thoroughly scientific remedy for so long and have seen its reliable result so many times that we freely express our confidence.

J. G. Moore, Druggist, Water street, Connellsburg, Pa.

Notice.

To taxpayers of Connellsburg township: Those who wish to work their taxes will please apply to the road foreman at once, as this is the last month in which they will be allowed to work. After November 1 all taxes will be payable in cash. The Super-visors of Connellsburg township

The Devil

CHAPTER XX.

MILLAR'S sardonic face was wreathed in smiles as he looked after the two young girls, each of whom carried from his hateful presence a bruised heart.

With Millar it was the fate of a child of the underworld—something to which she was pathetically resigned. With her there was no struggle. She knew that when she ceased to charm she must go her way and find another man, a master rather than a sweet-heart.

Elsa could not have told herself what fear made her fly from the studio after Millar, but she feared that she was also doomed to give up the hope of her heart. It was her first cruel disappointment, but Millar had made her see that she was beaten, and in spite of her earlier resolution to fight, she saw that fighting would bring only unhappiness. She hurried to her waiting carriage and was driven home, where she locked herself in her room to weep.

And Millar, the statler being, ever at hand with his insidiously evil suggestions, chuckled as he watched them. He threw himself into a chair and rang the bell for Heinrich. The old servant entered rebelliously, but, trained to habits of obedience, he could not give expression to his feelings of hatred and distrust of his master's strange visitor. As for Millar, he even seemed to find something amusing in the old man's oblivious aversion.

"Bring me tea and brandy," he ordered promptly.

"Yes, sir."

"Is your master up?"

"Yes, sir."

"Has any one seen him this morning?"

"No, sir. Miss Hoffmann's maid was here three times."

"What for?" Millar demanded quickly.

"She wished to know who Miss Hoffmann might see. Mr. Karl. I told her I had strict orders not to call him before 3 o'clock."

Millar looked at his watch and saw that it was a few minutes after 3 o'clock.

"'Tisn't we shall have another visitor shortly," he muttered. "I think I begin to see the completion of my work. It shall be this afternoon. Give me tea," he added to Heinrich, "and serve it in the studio."

The old man went out. Millar paced slowly up and down the floor, looking at his watch until he heard the door-bell ring.

"The beautiful Olga," he said, stepping softly from the reception room into the studio and leaving the way clear for Elsa.

She was admitted by Heinrich. She hurried into the room, looked wildly about her and sank into a seat. For a moment she could not speak.

"Oh, is this life really a serious minister?" Elsa exclaimed, "when everything can depend upon one's getting here a few moments before or after a few minutes after 3 o'clock?"

"Put by it exactly," Millar said. "We should not take it so seriously."

Olga looked thoughtfully away from him and said to her self softly:

"He wept."

"Yes; he wept with joy. I do not like men who weep."

Olga did not heed his flippancy. She looked up at him impudently.

"I did not want him to get that letter," she said. "I can see to ask him to give it back to me unopened. I am too late."

"It is not you who are too late. It was I who was too early," Millar said deprecatingly.

"Oh, is this life really a serious minister?" Elsa exclaimed, "when everything can depend upon one's getting here a few moments before or after a few minutes after 3 o'clock?"

"Put by it exactly," Millar said. "We should not take it so seriously."

PARADE OF 25,000 TROOPS AT OPENING OF FOUNDERS' WEEK IN PHILADELPHIA.

Philadelphia's Founders' Week celebration began with a religious conclave participated in by a score of denominations on Sunday, October 4, but the formal opening of the big event on Monday was marked by a parade of 25,000 United States soldiers and members of the Pennsylvania National Guard. The entire city was illuminated by night, the municipal buildings being decorated with flags, bunting and elaborate electrical designs. This illustration shows the decorations at the city hall, one of the mounted heralds in medieval costumes announcing the opening of the celebration, the parade passing through Market street and a portrait of Mayor Reyburn, who reviewed the various pageants.

COAL PRODUCTION OF WHOLE WORLD.

United States Furnishes Almost Half of Entire Output.

GROWTH AND DEVELOPMENT.

More Than 98 Per Cent. of Total Production Comes From Countries Lying North of the Equator—Great Britain No Longer Rival.

In a report recently published by the United States Geological Survey, an advance chapter from Mineral Resources of the United States, Calendar Year 1907, G. W. Parker, the coal expert and chief statistician of the Survey, estimates the world's production of coal for 1907 at 1,209,184,109 short tons, of which the United States furnished 33 per cent. The following table from Mr. Parker's report, showing the production of the principal coal producing countries for the year nearest the one under review for which figures could be obtained, gives the details of his estimate. For sake of convenience in comparison, the quantities as reported have been reduced to short tons of 2,000 pounds each.

United States (1907)	480,363,424
East Russia (1907)	210,371,037
Germany (1907)	126,572,000
Austria-Hungary (1907)	43,972,316
France (1907)	40,768,215
Bulgaria (1907)	28,567,745
Russia (Finland) (1906)	28,567,745
Turkey (1907)	10,357,240
India (1906)	8,541,525
Canada (1907)	10,319,001
New South Wales (1906)	10,319,001
Spain (1907)	9,661,588
Prance (1907)	7,637,080
New Zealand (1906)	1,204,005
Natal (1905)	8,406,410
Mexico (1909)	765,205
Quebec (1907)	621,711
Bolivia (1904)	327,301
Italy (1906)	170,907
Sweden (1906)	142,877
Victoria (1906)	130,000
Cape Colony (1906)	80,000
Tunisia (1907)	79,000
Other countries	1,209,184,109
Total	1,209,184,109
Percentage of the United States	33.7

It will be observed that in 1907 the United States produced 60 per cent. more coal than Great Britain and over 100 per cent. more than Germany. Exclusive of Great Britain the United States produced in 1907 more coal than all the other countries of the world combined. It may also be noted that more than 98 per cent. of the total world's production of coal is from countries north of the equator, the countries south of that line producing less than 200,000,000 tons annually.

Mr. Parker also presents a table showing the growth of the coal industry in the United States since 1868 in comparison with that of other countries of the world, from which it appears that during the pe-

riod of 40 years the percentage of the world's total produced by the United States has increased from 14.22 to 39.72, and that since 1899 this country has held first place among the coal producers. It now stands far in the lead of all others, having so far outdistanced Great Britain that that country can no longer be considered a rival, although it is only nine years since it was supplanted by the United States as the greatest coal producing country of the world.

WATERWAYS CONVENTION. With 3,000 delegates and over 1,000 contestants expected, and with William H. Taft and William J. Bryan as the principal speakers, the convention promises to be a large, influential and highly interesting gathering.

NEGRO HIGHWAYMEN ACTIVE.

Masked Robbers Terrorize Residents of Washington.

WASHINGTON, Pa., Oct. 6.—Two masked negroes who made a wholesale raid on eighteen ward residents and also committed highway robbery in that section of Washington Monday night are being hunted for by the Washington police.

Mr. and Mrs. David McIntyre were held up early in the evening by two negroes and compelled to hand over \$35 and a gold watch. Clem Burt exchanged shots with a negro who was attempting to get into the Burt residence by the window pane, but the intruder got away safely. A car of merchandise standing on the Pennsylvania sliding rear Highland glass works No. 2, was looted and a large portion of its contents stolen.

To Talk for Water.

CHICAGO, Oct. 6.—(Special)—All

preparations have been completed for the opening here tomorrow of the third annual Lakes-to-the-Gulf Deep

Copyright, 1908, Rosenwald & Weil, Chicago

The Old Saying, "Every Man to His Trade," Is No Longer Applicable to the Trade of Clothes-Making.

Nowadays it should read "every man to his special part of his trade" for that is the way it is done by the tailors who build our garments. For example, our clothes for young men are turned out independently of the older men's. They are designed, planned and executed independently resulting in the creation of individual styles for the younger generation. This rule holds true throughout the entire stock, so that it matters not what your desires may be, we are able to clothe you according to your own personal demands. This may seem trivial when seen in print but you will doubly appreciate its significance when you come to make your selection from our excellent assortment. The highest type of tailoring excellence protects our patrons at every possible point.

We direct the special interest of all carefully dressed men to the many distinctive and critically correct models assembled here for their inspection. Not the usual ready-for-service clothing, but garments that bespeak the individual hand work that gives to them "the hang" and "lines" only obtainable through expert craftsmanship.

Wright - Metzler Company.

Baseball Decision Today.

Cincinnati, Oct. 6.—The directors of the National League adjourned last night without having reached a decision on the disputed game of Sept. 23 between the New York and Chicago clubs. Mr. Hermann stated that the directors had heard all the evidence and had decided to defer their decision until today.

FOOTBALL PLAYER FATALY HURT. Canonsburg, Pa., Oct. 6.—As the result of injuries received in a football game here William M. Potts, son of R. C. Potts, is in a critical condition. Potts was kicked in the head. Doctors say there is very little hope for his recovery.
